Tour the TINELINE

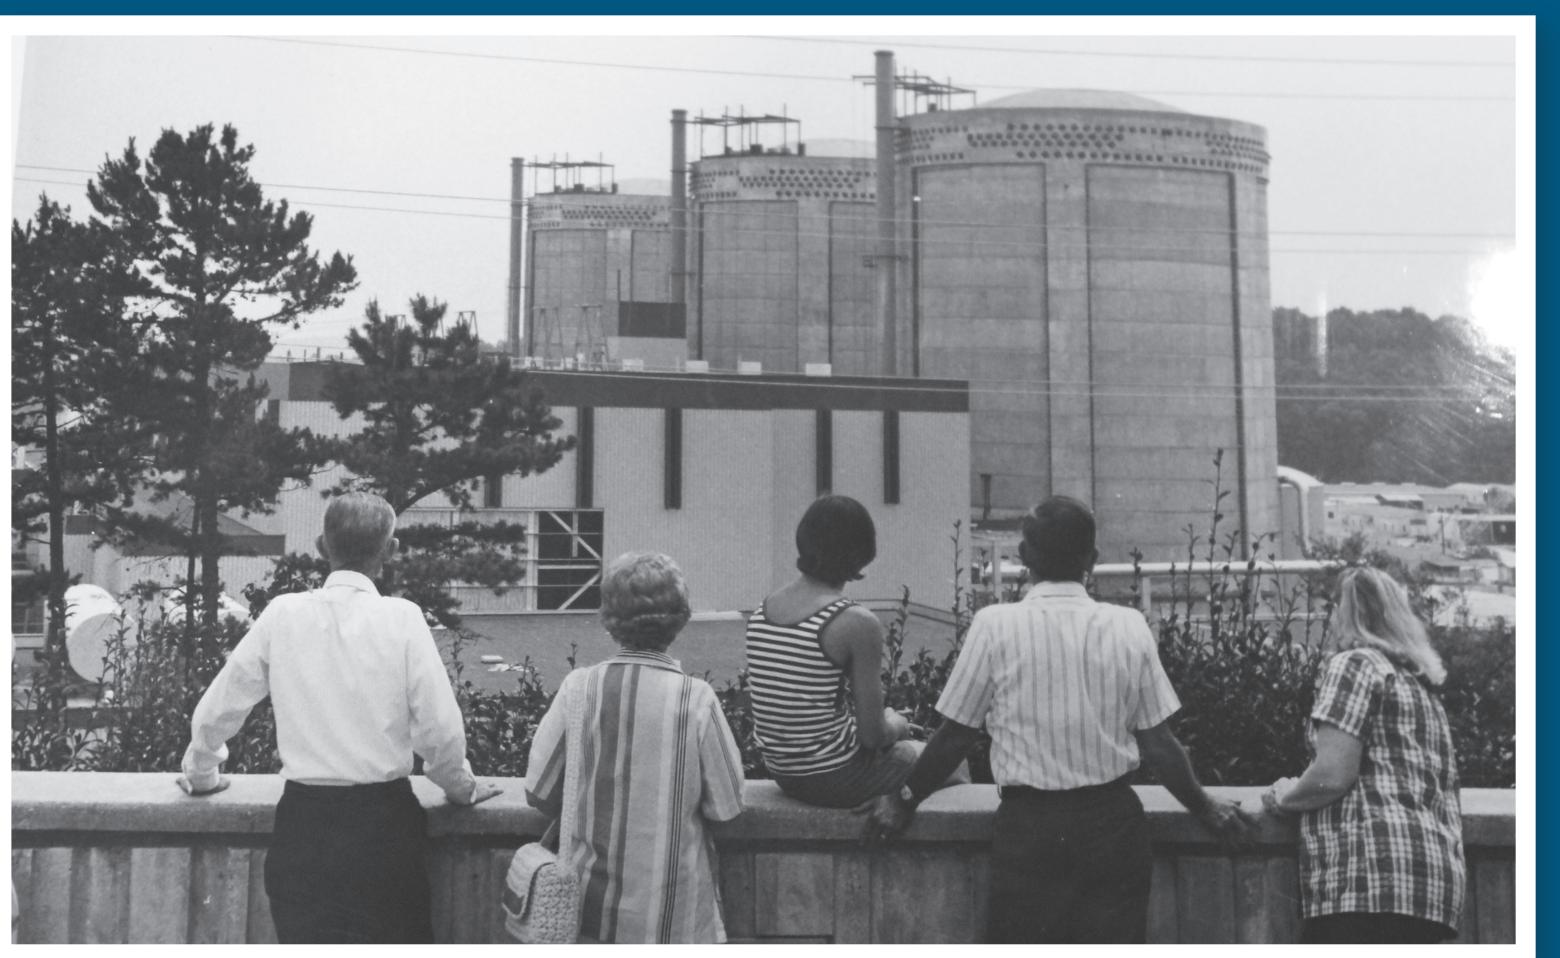

Duke Power announces it will build a permanent visitors center named the Keowee-Toxaway Visitors Center.

Since 1969, Duke Energy's World of Energy at Oconee Nuclear Station has offered family, educational and recreational opportunities to the public, with engaging and interactive displays depicting the energy of yesterday, today and tomorrow.

1968

The company's Keowee-Toxaway project earns the American Society of Civil Engineers Excellence Award.

Oconee Nuclear Station
Unit 2 and Unit 3 begin
commercial operation.

1303

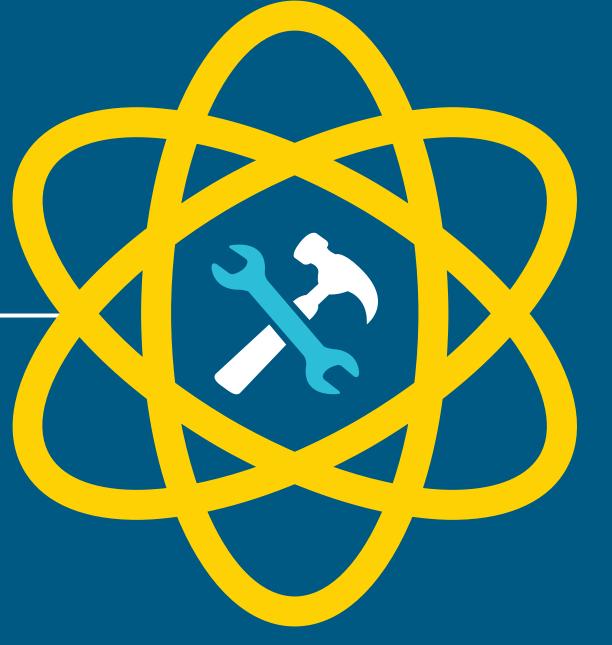

The Keowee-Toxaway
Visitors Center opens.
More than 250,000
people visit the first year.

The Keowee-Toxaway
Visitors Center receives
the President's Award as
the #1 tourist attraction in
South Carolina.

1975 1974 1973

LOOO

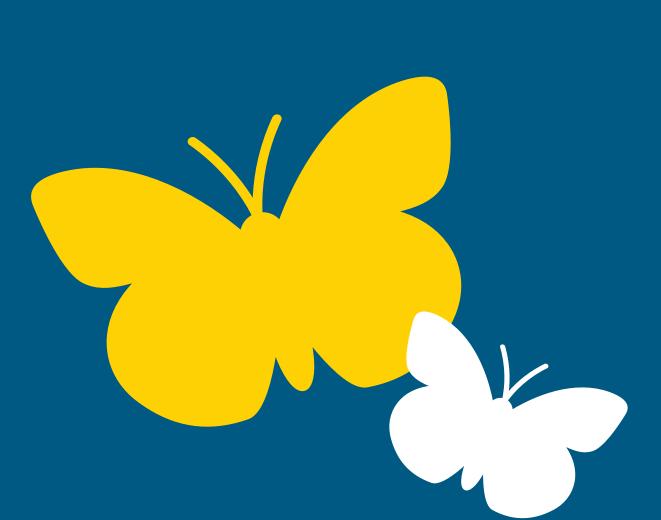

The Story of Energy exhibit undergoes major renovations.

The Keowee-Toxaway
Visitors Center
changes its name to
the World of Energy.

The World of Energy celebrates its 2 millionth visitor.

Butterfly garden, picnic area and dock added to the World of Energy grounds.

1986

1994 through 2001

The World of Energy celebrates its 50th anniversary.

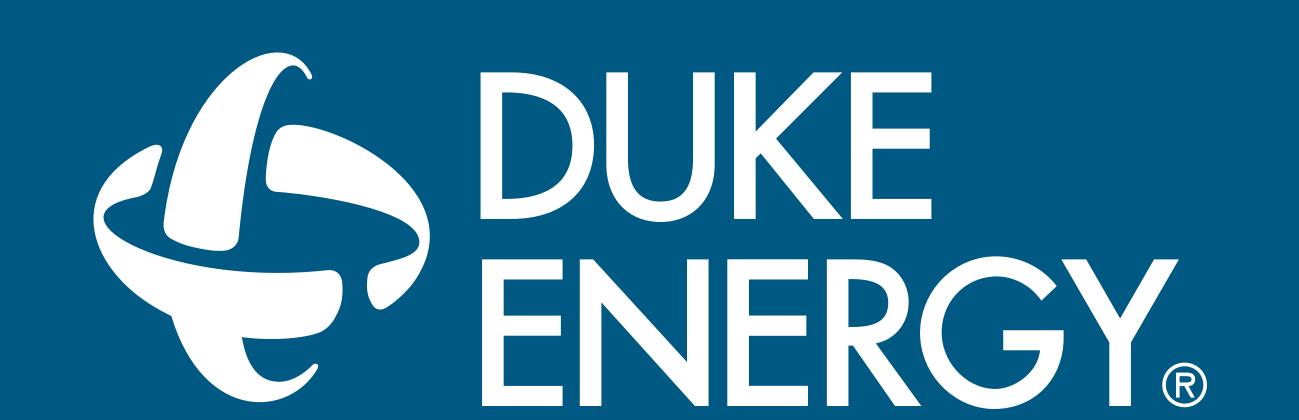

A total solar eclipse passes over Oconee Nuclear Station. Totality hits the World of Energy for precisely 2 minutes, 30 seconds.

Following the September 11 attacks, the World of Energy closes its doors until January 2002.

Oconee Nuclear Station receives a license extension for an additional 20 years.
